

**Motivation Letter for the candidacy for the position of Treasurer of the European Heart Rhythm Association 2026-2028**

***Prof. Dr. med. David Duncker, FESC, FHRS, FEHRA***

Dear Colleagues,

EHRA has profoundly shaped me as a clinician, researcher, and educator. Over the years, many of the colleagues behind familiar names have become close friends. In that sense, EHRA has grown into a second family for me.

Over many years I have served on the EHRA board and led EHRA committees – e-Communications (2020–2022), Digital & e-Communications (2022–2024), and Digital medicine & mHealth (2024–2026) – and contributed to the Scientific Programme Committee for the 2023 and 2024 congresses. I also helped build EHRA’s modern communications portfolio, including the EHRA Cardio Talk podcast, coordinated social-media outreach, and EHRAtv and the “Good Morning EHRA” at our congresses. As Head of the Hannover Heart Rhythm Center, I manage teams, budgets, and timelines daily. I am running for Treasurer to bring the same discipline, transparency, and delivery to EHRA’s finances – quietly, reliably, and with high respect for the trust you place in this role.

Our society faces cost pressure, evolving compliance, and changing congress dynamics. This moment calls for a Treasurer who can turn strategy into numbers, risk into plans, and spending into measurable member value. I am day-one ready to do exactly that. My commitment is simple: prudent finance and visible results.

I would be honoured to earn your vote and to serve as your Treasurer.

If elected, my focus will be transparent reporting, careful prioritisation, and steady collaboration with the President, the board, the office, and all committees. I will listen first, build consensus, and deliver on time. If entrusted with this responsibility, you can expect discretion, loyalty, and diligent stewardship.

Thank you for considering my candidacy.

With appreciation,

Prof. Dr. David Duncker, FESC, FHRS, FEHRA  
Candidate for EHRA Treasurer (2026–2028)

December 21st 2025
