

Group 1 : WHAT ARE THE 3-5 PRIORITIES FOR ACTION BY ESC?

Advocacy **Strategic imperative for ESC** – articulate the impact of the climate emergency and planetary health on the CV health of the population – communicate our moral authority

Guidelines Sustainability considerations built into **clinical guidelines**

ESC could **endorse information** from other organisations (respiratory societies) – review and develop information for CVD patients

Education Education CVD professionals – **review core curriculum** (medical and nursing/AP) for mitigation strategies.

Reaching out and engaging with relevant bodies and organisations to **generate alliances**

Quality Develop standardised metrics for **Quality indicators** for cardiovascular departments

Congresses/courses **Green travel incentives** for congresses / **Hybrid Courses**

Group1: ESC priorities
